EXECUTIVE SUMMARY & CAREER OBJECTIVE

I am a fresh graduate. Almost a year of experience in project development with java and javascript. I love learning about new technologies and advanced knowledge in programming. My goal is to be associated with a company where I can use my skills and gain more experience while improving the company's productivity and reputation.

WORK EXPERIENCE

Fullstack developer

06/2022 - Present

TMA Solutions - Ho Chi Minh city, Vietnam

Employing over 3800 people, TMA Solutions is the leading Vietnam Software Outsourcing company. I'm a fullstack developer here. My job while working here includes:

- **Backend:** Web application development with Java includes: write new code and maintenance, write unit tests for already written features. We used Java Spring Boot for Backend with **Gradle**(build automation tool)
- **Frontend:** Build interfaces for API-written features with **Antd** and **ReactJS** libraries. Recently, we integrated MicroFE for our project
- **Devops:** Writing pipe for deploy and Backend and Frontend web application. Writing pipeline for backup and restore vault(Hashicorp vault). Fix security vulnerability
